while, during the course of his employment, he attempted to hold up a
beavy post which was falling. Later
the was forced to undergo a serious
surgical operation and had what the
surgeon termed a "very stormy conralescence."

valescence."

Notice of the injury was not given to the respondents within the required 30 days, but Justice Barrows, who presided at the trial, ruled that, under the circumstances, the respondent was entitled to the benefits of the exception contained in the workmen's compensation act walving the requirement for notice "by reason of accident, mistake or unforeseen cause."

This ruling is sustained by the supreme court.

This ruling is sustained by the supreme court.

Justice Vincent delivered a dissenting opinion, holding that the respondent's appeal should be sustained because "the trial court has found that
the petitioner could have given notice
if it had occurred to him to do so,
which is equivalent to saying he could
have done so had he thought of it or
if he had not neslected it." if he had not neglected it."
